EU REACH COMPLIANCE STATEMENT

Provided To: Javad GNSS

This is to certify that Javad EMS does not export quantities greater than one metric ton per year to the EU. We also do not use SVHC in our products. Our products use Lead Free/Rohs components and solder. Any chemicals used in our process such as Flux and Alcohol have been removed or activated to where there is no risk to the consumer or environment. Conformal Coating processes are outsourced and once returned to us, the coating is considered non hazardous/inactive. Our facility is maintained to the CAL/OSHA guidelines set forth by the state of California.

PLEASE FEEL FREE TO CONTACT OUR QUALITY DEPARTMENT AT JAVAD EMS
